Course Title: Intrapartum Risk Screening

Credits: 1.0

Course Description: In this course, students will gain a basic understanding of how the midwife determines the normal progression of labor and delivery. Students will learn how to evaluate the risk status of a client at the onset and duration of labor. The student is asked to evaluate the risk factors that can arise in the intrapartum period and gain an understanding of how to recognize or rule out signs and symptoms of complications that can change the client's risk status.

This course uses current research in midwifery and obstetrics to broaden the student's understanding of the NARM skills and MEAC essential competencies learned under clinical supervision.

Learning Objectives

Learning objectives  (https://ncm.instructure.com/courses/654/files/15464/download?download_frd=1) are identified through the linking of MEAC Essential Competencies and the NCM Degree Qualification Profile.

Learning Activities

Intrapartum Courses

Read, listen to, watch assigned lesson materials.

Submit a written summary of current research.

Complete oral and/or written formative didactic assessments with a final summative submission.

Identify and cite high-quality sources.

Use articulated reasoning while participating in an oral presentation, facilitated discussions and skills demonstrations.

Optional: Participate in a skills demonstration and/or role playing activity.

Analyze a case study.

Create an infographic, handout, and/or community resource.

Optional: Develop a study aid.

Complete a final exam.

Note: The clinical requirement of NARM /Clinical Skills is completed at any time throughout the ASM apprenticeship during actual clinical practice and is NOT a requirement to complete this academic course. Typical clinical manifestations of knowledge learned in this course are identified in the learning objective document above.

Learning Materials / Resources:

1. Gruenberg, Bonnie. Birth Emergency Skills Training Manual for Out-of-Hospital Midwives. Birth Muse Press, 2008.
2. Chapman, Vicky and Charles, Cathy. The midwife's labour and birth handbook. 4th edition. Blackwell Publishing, 2018.
3. Tharpe, Nell and Farley, Cindy. Clinical Practice Guidelines for Midwifery and Women's Health. 4th edition. Jones and Bartlett Publishing, 2012.
4. Frye, Anne. Holistic Midwifery: A Comprehensive Textbook for Midwives in Homebirth Practice, Vol. 2. 2nd Labrys Press, 2013.
5. Marshall, Jayne E, Raynor, Maureen D(editor). Myles Textbook for Midwives. Churchill Livingstone; 17th edition, 2020.
6. Varney, Helen. Varney's Midwifery, 6th Edition. Jones and Bartlett Publishers, 2018.
7. Cunningham, Kenneth Leveno, Steven Bloom, and John Hauth. William's Obstetrics. 25th edition. McGraw-Hill Professional. 2018.
8. Weaver, Pam and Evans, Sharon K. Practical Skills Guide for Midwifery, 5th Morningstar Publishing Co. Wasilla. 2012.
9. Davis, Elizabeth. Heart and Hands: A midwife's guide to pregnancy and birth. 5th Edition. Celestial Arts Press. 2012
10. MEAC Abbreviated NARM Skills Form: **[MEAC Abbreviated NARM Skills Form](#)**
11. MEAC Essential Competencies:
<http://www.midwiferycollege.org/downloads/worddocs/Curriculum-Checklist-of-Essential-Competencies-rev-2014.pdf> **[.\(http://www.midwiferycollege.org/downloads/worddocs/Curriculum-Checklist-of-Essential-Competencies-rev-2014.pdf\)](http://www.midwiferycollege.org/downloads/worddocs/Curriculum-Checklist-of-Essential-Competencies-rev-2014.pdf)**
12. Midwives Model of Care®: **[Midwives Model of Care® \(https://www.citizensformidwifery.org/mmoc/\)](https://www.citizensformidwifery.org/mmoc/)**

Evaluation Tools / Methods:

The minimum passing grade for all courses is a cumulative 80% / B-. Grades are not recorded until both the student and preceptor submit end of trimester evaluations and in the case of general education courses supervision is completed.

All assignments for this course are evaluated using the following criteria:

1. Responses to each didactic assessment are evaluated utilizing the NCM rubrics and degree level profile.
2. Answers should reflect a thorough review of the current literature regarding best current practices in midwifery care.
3. Non-plagiarized paraphrased answers from text which demonstrate appropriate comprehension of the learning objective. (Formative Assessment) *Students and Online Learning Coordinators work together until the student masters the information. (Summative Assessment)*
4. Group sharing within NCM is acceptable and encouraged. Students are allowed to use each other's answers by indicated "Group Share" and submission of the answer on all group identified assignments.
5. NCM's **Integrity Code** (https://docs.google.com/document/d/14PvgiDU4MJEKRZZiUQRFhNBEDL_KFqZzATPkDvuQYzA/edit?usp=sharing) is the basis for a "completed" score earned on all assignments which are allowed to be completed in community with the student's active preceptor(s).
6. Random evaluation of cited sources and page numbers for each written assignment.

Course credit: One Academic credit equals approximately 15 hours of formal time plus 30 hours of additional study or homework. Formal time is defined as the amount of time taken to answer the Learning Objectives to the level of 80% for midwifery courses and 70% for general education courses and to complete any learning activities to the preceptor's satisfaction, including any time spent face to face with the preceptor. Informal time includes any time spent actively reading relevant sources and textbook/s, researching Learning Objectives, and studying for examinations.

Course Summary:

Date	Details	Due
	 <u>Community preceptor: MW 321-007 Discuss the ways in which a midwife can reduce risk to mother and baby by assessing the birth environment at the onset of labor.</u> (https://ncm.instructure.com/courses/654/assignments/26187)
